Local Government: Municipal Systems Act, Act 32 of 2000
Local Government: Municipal Finance Management Act, Act 56 of 2003, Section 14 (2)(a) & (b);
Municipal Asset Transfer Regulations (2008), Regulation 5 (1), (2) & (6)

6. Background / Discussion / Evaluation / Conclusion

Section 14(2) of the Municipal Finance Management Act, Act 56 of 2003, states that:

“A municipality may transfer ownership or otherwise dispose of a capital asset other than one contemplated in Subsection (1), but only after the municipal council, in a meeting open to the public –

(a) has decided on reasonable grounds that the asset is not needed to provide the minimum level of basic municipal services; and

(b) has considered the fair market value of the asset and the economic and community value of the to be received in exchange for the asset.”

Regulation 5 of the Municipal Asset Transfer Regulations, 2008, states that:

- (1) *A municipality may transfer or dispose of non-exempted capital assets only after –*
- (a) *the accounting officer has in terms of regulation 6 conducted a public participation process to facilitate the determinations a municipal council must make in terms of Section 14(2)(a) and (b) of the Act; and*
 - (b) *the municipal council –*
 - (i) *has made the determinations required by Section 14(2)(a) and (b); and*
 - (ii) *has as a consequence of those determinations approved in principle that the capital asset may be transferred or disposed of.*
- (2) *Subsection (1)(a) must be complied with only if the capital asset proposed to be transferred or disposed of is a high value capital asset. If the combined value of any capital assets a municipality intends to transfer or dispose of in any financial year exceeds five percent of the total value of its assets, as determined from its latest available audited financial statements, subregulation (1)(a) must be complied with in relation to all the capital assets proposed to be transferred or disposed of during that year.*
- (6) *A municipal council may delegate to the accounting officer its power to make the determinations referred to in subregulation (1)(b)(i) and to give the approval referred to in subregulation (1)(b)(ii) in respect of moveable capital assets below a value determined by the municipal council.”*

Included in the MTREF for the 2016/17 period a number of capital projects in respect of Basic Infrastructure were approved and adopted by Council. Although the individual asset items could not be identified at the time, it was implied that in the process of upgrading or refurbishing the various Infrastructure networks, a number of parts / pieces of the existing Infrastructure Assets would be abandoned as it would not be economically viable to remove and dispose of it by any other means. No fair market value can be determined in respect of these assets as there is no active market for trading in municipal infrastructure assets. The cost price, accumulated depreciation and net carrying value in respect of these assets are detailed in **ANNEXURE A**.

None of the assets identified to be disposed of / written off / replaced were required to provide the minimum level of basic services.

During the financial year ended 30 June 2017, minor assets and control items (as set out in **ANNEXURE B**) were identified as being either redundant, obsolete or damaged beyond economic repair. The Accounting Officer, in terms of the delegated authority, approved the disposal of the movable assets and it was subsequently disposed of by means of a public auction.

7. Financial Implications
