10. MBD 9 – CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).⁴ Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - 3.1. take all reasonable steps to prevent such abuse;
 - 3.2. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - 3.3. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

CERTIFICATE OF INDEPENDENT BID DETERMINATION:

I, the undersigned, in submitting the accompanying bid, hereby make the following statements that I certify to be true and complete in every respect:

6. I have read and I understand the contents of this Certificate;
7. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
8. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
9. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;

 - 1.1. has been requested to submit a bid in response to this bid invitation;

⁴ Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

- 1.2. could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - 1.3. provides the same goods and services as the bidder and/or is in the same line of business as the bidder
11. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium⁵ will not be construed as collusive bidding.
12. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
- 12.1. prices;
 - 12.2. geographical area where product or service will be rendered (market allocation)
 - 12.3. methods, factors or formulas used to calculate prices;
 - 12.4. the intention or decision to submit or not to submit, a bid;

13. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
14. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
15. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No. 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No. 12 of 2004 or any other applicable legislation.

PART B – SPECIFICATIONS AND PRICING SCHEDULE

13. SPECIFICATIONS

**ENVIRONMENTAL MANAGEMENT SYSTEM – OVERSTRAND MUNICIPALITY
TERMS OF REFERENCE**

Aim of this term of reference:

- explain the rationale for initiating an Environmental Management System for Overstrand Municipality;
- explain the expectations of Overstrand Local Municipality from the consultancy

1. Introduction**1.1. Context and History of Overstrand Municipality**

The Municipality covers a land area of approximately 2 125 km², with a population currently estimated at 87 000 people and covers the areas of Hangklip/Kleinmond, Greater Hermanus, Stanford and Greater Gansbaai. The municipal area has a coastline of approximately 200 km, stretching from Rooi Els in the west to Quinn Point in the east. In addition to the endless, pristine beaches dotting the coastline, the Overstrand boasts 3 Blue Flag beaches. Tourism is a major economic driver in the area and its popularity as a holiday destination results in a fourfold increase of its population over the holiday seasons. This influx places a great strain on the existing municipal services, roads infrastructure and natural environment. (Overstrand SDF 2013/2014)

1.2. Motivation

An Environmental Management System (EMS) is that part of an organization's overall management structure and arrangements that addresses the immediate and long-term impact of its activities, products, services, facilities and processes on the environment. In short, it is a system that aims to minimize environmental impacts. By implementing an EMS the Municipality seeks to instil "Best Practice" procedures in the operational aspects.

A detailed management system based on ISO 14001:2004 is problematic for a local authority for the following reasons:

- a. complexity of all the requirements
- b. complex management model of local government in South Africa
- c. resource constraints to execute additional tasks to the legally required duties
- d. EMS is often seen as a paper warfare
- e. some municipalities feel an EMS is a foreign imposition, while the IDP process and product may be readily used to achieve most of the objectives of an EMS; and
- f. EMS remain voluntary, while an IDP based format is legally binding and linked with municipal performance management systems.

The IDP makes provision for mandatory sector plans with a direct or incidental focus. The IDP system also makes provision for the voluntary adoption and use of sector plans, which is why it was decided to draw up an Integrated Environmental Management Plan.

This project seeks to solicit professional services for the preparation of the Integrated Environmental Management Plan for the Overstrand Municipality (OSM).

2. Scope of the Consultancy:

The outcome/deliverables of this project will comprise of two strategic documents, namely the Status quo Report and an Integrated Environmental Management Plan (IEMP) for inclusion in the IDP.

NAME OF FIRM			

2.1. Status Quo Report

A *Status quo* report must precede the IEMP to identify current environmental management and governance practices and processes in place at OSM, including any gaps that need to be addressed. The key elements contained in the status quo report should be:

- 2.1.1. To identify the environmental mandates and duties of OSM
- 2.1.2. Identify current environmental structures, processes and arrangements at OSM
- 2.1.3. Identify current environmental management tools and Standard Operating Procedures (SOP's) at OSM
- 2.1.4. Identify priority environmental concerns and the status quo
- 2.1.5. Identify the status of OSM's current legal compliance
- 2.1.6. Do a gap analysis and identify Best Practices in place
- 2.1.7. Provide recommendations to inform the IEMP for OSM

2.2. Integrated Environmental Management Plan (IEMP)

Following on the Status quo Report, an IEMP must be developed. The IEMP will have to go through a process of Public Participation (PP) prior to submission to Council for approval. The PP process entails making the document available for public comment and conducting 3 public meetings.

Specific deliverables to include in the IEMP plan are:

- 2.2.1. A detailed register of mandates and duties as specified in terms of applicable environmental law and revised master environmental by laws.
- 2.2.2. A proposed structure with management and governance processes and other arrangements including revised or new environmental training needs assessment.
- 2.2.3. A description of a series of environmental management and governance instruments that cover the plan-do-check-act and reporting instruments at operational and strategic levels that may be adopted and used by OSM. This must include revised and new master SOP's, as well as arrangements to maintain key infrastructure.
- 2.2.4. Environmental management and governance policy statement; broader objectives, detailed targets that are supported by environmental indicators and a management plan that provides for: who must do what by when and how, including an allocation of the required resources.
- 2.2.5. An environmental monitoring and measurement programme, as well as reporting protocol to facilitate environmental performance management.
- 2.2.6. Arrangements for environmental performance management, keeping of records, management review and improvement of the IEMP.

3. Duration of the Project

- 3.1. The Status Quo report is to be completed within 5 months of appointment of the service provider (before 31 June 2014).
- 3.2. The completed IEMP must be submitted no later than 30 June 2016.

- 4.2. Second payment on submission of Draft IEMP;
- 4.3. Third Payment on completion of Public Participation process; and
- 4.4. Fourth and final payment on submission of final IEMP.
